C.N.R. Revenue For July Shows Increase

Montreal, August 20—Operating revenues of the Canadian National Railways System, all-inclusive, for the month of July amounted to \$39,845,000. Operating expenses were \$30,761,000. The net revenue was \$9,084,000. In July 1944 revenues were \$38,481,000; expenses \$29,739,000, and net revenue, \$8,742,000.

For the first seven months of this year, operating revenues were \$253,714,000; operating expenses, \$205,232,000, and net revenue, \$48,482,000. The comparative figures for 1944 are revenues, \$252,060,000; expenses, \$202,335,000 and net revenue, \$49,725,000.

RAINCOATS FROM BARRAGE BALLOONS

LONDON—Many hundreds of barrage balloons, used in the defence of London and other cities in Britain, have been placed by the British Government at the disposal of industry. Raincoats, rubber aprons and various household goods are now being manufactured from the "demobilized elephants", which have been protecting vital targets from Nazi bombers.

NINTH VICTORY LOAN

QUOTA SET

Honorable J. L. Halsey, Minister of Finance, announced today that the minimum objective for the Ninth Victory Loan which opens on October 22nd has been set at \$1,500,000,000 of which \$800,000,000 is the minimum objective for sales to individuals. This is an increase of \$125,000,000 over the individual objective for the Eighth Victory Loan. Because final victory will mean a material reduction in Canada's war costs, he said, it is possible for the Ninth Victory Loan to meet Canada's borrowing needs for a twelve month period.

CARD OF THANKS

Mr. and Mrs. H. Harden and family wish to thank the doctor, Hospital staff and their many friends and neighbors for the care and kindness shown Ronnie during his recent accident. Also those who gave him assistance in preparing and taking him to the hospital.

Hydroponics, the science of soilless agriculture, has been used during the war to provide fresh vegetables and fruits for Canadian servicemen in distant outposts.

Farewell Party For Mrs. M. Thomson

During Friday afternoon the ladies of Paschenade and surrounding districts gathered at the home of Mrs. Minnie Thomson and gave her a surprise farewell tea party.

A contest of making words from the two words "moving" and "packing" was enjoyed by all. Mrs. Mildred Oldham gave a comic story for being the winner.

Mrs. Taylor then escorted Mrs. Thomson to the living room where Mrs. Gray presented to her a Trilite Floor Lamp as an expression of esteem in which Mrs. Thomson has been held in our community, and with every good wish for her happiness in her new home. In a few well chosen words Mrs. Thomson thanked the ladies.

Mrs. G. A. Hunter of Vancouver, an old time friend of Mrs. Thomson was present and renewed acquaintances.

After a delightful luncheon the ladies departed for their homes with good wishes to Mrs. Thomson.

The guests included Mrs. E. C. Prior, Mrs. W. Prior, Mrs. R. E. Prior, Mrs. G. A. Hunter, Mrs. G. Coulman, Mrs. S. D. Coulman, Mrs. A. Everett, Mrs. Lewis Alexander, Mrs. Lloyd Everett, Mrs. G. S. Valieu, Mrs. W. Pollard, Mrs. J. Pollard, Mrs. J. B. Lantier, Mrs. Marie Babcock, Mrs. R. Dalton, Mrs. Wm. Milton, Mrs. H. Taylor, Mrs. C. Taylor, Mrs. W. Gray, Mrs. H. Adams, Ethel Bacon, Mrs. M. Steele, Mrs. A. Bacon, Mrs. N. Willerton, Mrs. C. Johnson, Mrs. Beth Oldham, Mrs. Mary Thompson, Mrs. W. H. Johnson and Mrs. Steve Thomson.

C. Cofield Killed On Active Service

It is now known that Clarence Lenard Cofield was killed on active service on March 26th, 1945, when on his first raid of his tour of ops, the bomber that he was mid-gunner on was hit by flak.

Mr. and Mrs. H. C. Cofield received word this week, from Air Marshal Robert Leckie, that Clarence (better known as Spud) was killed over Münster, Germany at 11:15 a.m.

Spud was born in Wainwright 24 years ago and lived here all of his life prior to enlisting in the R.C.A.F., as ground crew in November 1941.

He obtained his schooling here and was very keenly interested in sport activities, such as baseball, softball and hockey. He was very well known here by a wide circle of friends and was liked and respected by all who knew him.

Spud enlisted in the Air Force as a painter, and after two years of ground crew duties, remustered to Air Crew, where he obtained his wings from No. 8 Bombing and Gunnery school at Lethbridge. He had been stationed at different stations across Canada including, Edmonton, Calgary, Yorkton, Prince Rupert, Allford Bay Rivers and finally wound up at Lachine Quebec where he was transferred to overseas strength and went overseas in July 1944.

Through his training period he became acquainted with Mr. Bill Dyer of Saskatoon and they were stationed together overseas, going out on the same missions.

Mr. Dyer was on the same raid as Spud when the bomber and five crew members met their fate that morning of March 26th. Of the six members of the crew, Mr. Dyer is the only one that escaped uninjured, and is now enjoying a well earned leave at home in Saskatoon.

Mr. and Mrs. Dyer, and son Bill motored up to Wainwright last week to pay a visit to Mr. and Mrs. Cofield in respect of Spud, who they all knew and liked so well.

The Star joins with hosts of others in extending its heartfelt sympathies to Mr. and Mrs. Cofield and family, in the learning of the loss of their son Clarence on active service overseas.

STREAMLINE COMPLAINTS

Keep your labels, shoppers! Then they are all ready as evidence in case of degradation of quality complaints on ready-to-wear merchandise. Make complaints to retailers. It may be that a few inferior garments crept into one shipment. If the retailer can't help you, take your poor-quality article, with labels, to the Prices Board, Standards Division, W.P.T.B. Ottawa, has facilities to check back and investigate in the factory where the article was manufactured.

Former Wain Boy Married In Camrose

A wedding of local interest was held in Camrose at St. Andrew's Anglican Church on Wednesday, August 29th when Miss Edith Hilda Kenrick, daughter of Mr. and Mrs. F. O. Kenrick of Nova Scotia became the bride of Thomas James Chesterman, oldest son of Mr. and Mrs. Alf Chesterman of Camrose. Rev. Wallace performed the marriage rites.

Given in marriage by the groom's grandfather, Mr. James of Winfield, the bride was wearing a long white dress with long sleeves. She wore a long white veil and carried a bouquet of roses.

Miss Florence Chesterman, sister of the groom was a lovely bridesmaid wearing full length white dress and short veil. She carried carnations.

Mr. Alfred Chesterman supported his brother as best man.

During the signing of the register Mrs. Fuller sang "Till We Meet Again" accompanied by Mrs. Carey at the organ.

After the ceremony a reception was held at the home of the groom's parents to a large number of guests. The bride's table was laid in white linen centred by a three tiered wedding cake.

Rev. Wallace proposed the toast to the bride to which the groom suitably responded.

For travelling the bride changed to a tuxedo suit with matching accessories. After a short honeymoon the couple will make their home in Calgary.

Out-of-town guests in Camrose for the wedding included: Mr. and Mrs. J. James and Miss Fern Barden of Winfield, Mr. and Mrs. F. Chesterman of Hope Valley, Mr. and Mrs. B. James of Heath, Mrs. Chas. Hutchinson, Misses Norma and Phyllis Hutchinson of Wainwright.

Labour Situation In Meat Packing Industry

Shortages of workers reported by meat packing plants across Canada exceed substantially the one thousand mark, stated A. MacNamara, Deputy Minister of Labour, today.

Mr. MacNamara said that the highest labour priority rating is being given to most of the packing plant labour demands, and that the Regional and Local Offices of the National Employment Service are making special efforts to secure the work force.

Shortages are reported from Toronto, Kitchener, London, Stratford, Guelph and Barrie in Ontario, and from Montreal and Hull in the Province of Quebec.

Four plants in the Vancouver District of British Columbia are short of men, while shortages also are reported from Calgary and Edmonton in Alberta. Regina, Prince Albert and Moose Jaw in Saskatchewan are all included in the cities listed as having shortages of packinghouse workers, while from Manitoba substantial shortages are reported at Winnipeg and a small shortage at Brandon.

One of the difficulties which the Employment Service has encountered Mr. MacNamara pointed out, is that the number of men quitting jobs in the packinghouses runs to quite a figure each month, with the result that even if the Employment Offices provide workers, there is not necessarily any net gain for the industry.

Consideration is being given to the temporary employment of some army personnel, to help out in the emergency, and as soon as harvests have been taken off in Eastern Canada, consideration will be given to securing men from the farms for the packinghouses in Quebec and Ontario.

Last year an appeal to farm workers, after the close of the harvest, was quite successful in securing men for the packinghouses. Mr. MacNamara pointed out, and once the point has been reached where the men can be spared from the farms it is to be anticipated that the same course this year would also meet with success. Mr. MacNamara further pointed out that the farmers, as producers of livestock, have a very direct interest in seeing that meat processing is not held back by labour shortages. He further pointed out that Canada's commitments for meat for Europe, together with the meat situation here in Canada, indicate the prime importance of keeping the meat processing plants going at full capacity.

Motorists Prepare For Bird Shooting

Many thousands of Alberta citizens who are motorists are expected to take advantage of the opening of the bird shooting season this year.

The Alberta Motor Association has received word of steps being taken to provide needed ammunition for hunters, wartime restrictions having been removed. It is claimed that there will be all the ammunition that is needed this season.

The duck shooting season in Alberta will open north of the Athabasca river on Sept. 4 and close Nov. 24. South of the Athabasca, the season will be open Sept. 15 and close Dec. 15. The bag limit is 20 per day and 150 for the season.

The same dates apply to shooting of geese, with a bag limit of five per day and 25 for the season.

Season for shooting of Hungarian partridge is restricted to the southern part of the province. The shooting period is from Oct. 1 to Nov. 24. Part of the northern boundary of the area is the Highwood river and highways No. 1 and 9 to the Saskatchewan boundary. The bag limit is five birds per day and 25 for the season.

Open season for prairie chicken also is restricted to the southern part of the province, in the area south of Calgary. Bag limit is five birds per day and 25 for the season.

Cock pheasants may be shot throughout the province from Oct. 2 to Nov. 10, except in the Eastern Irrigation District where the season is from Oct. 8 to Dec. 1. Bag limit is five birds per day and not more than 30 for the season.

There is a closed season on ruffed grouse for the province.

The Kinsmen Fund For British Children

Although shipments of milk to the children of Britain will continue for some months this year—with further carload consignments going forward as supplies are made available in 1946—no new money-raising efforts for Milk-for-Britain will be launched after this date by the Association of Kinsmen Clubs.

The need of the children "Over There" continues but we now have sufficient money or hand to purchase all milk allowed us by Government allocation this year as well as a large part of the allocation anticipated for 1946", stated H. A. Rogers, National Chairman of the Kinsmen Fund. Estimates of the purchases to be made in 1946 are based on money now in the National Committee's bank, together with other money expected from Kinsmen projects now underway and from milk bottles and other contributions, the chairman said.

The decision to cease Club activity insofar as Milk-for-Britain is concerned—on a date to be announced by the Kinsmen National War Services Committee—was reached at a National Council meeting of the Association held in Winnipeg on Aug. 11th. The meeting, which included the National Officers and District Governors—Elected for 1945-46, accepted the Committee's recommendation for cessation of money-raising activities and received the report that 28,727,360 quarts of milk had been shipped to Britain since the inception of the Milk-for-Britain Fund in 1941. The report advised also that further shipments now on order for delivery in 1945, would bring the grand total to over 31 million quarts.

The total sum of money raised by the Kinsmen Clubs throughout Canada, and including contributions received from other organizations and people of the Dominion, as of July 31st, 1945, was \$2,485,252.96. This total will be substantially increased by the proceeds from numerous Kinsmen projects now being sponsored for Milk-for-Britain, and by public contributions and the Milk-for-Britain bottles in stores, etc., throughout Canada.

D. D. Forrest (Montreal), Kinsmen National President 1944-45, expressed great satisfaction and pride in his Association in the announcement that during his term of office a total of \$764,054.94 had been raised and 18,353,300 quarts of Milk-for-Britain had been shipped and distributed to little children in war hospitals, orphanages and other institutions in England, Scotland, Wales and in Northern Ireland. "We are gratified," he said, "that funds on hand and expected from present Kinsmen projects not yet completed, will enable us to continue shipments during 1945 and, to some extent in 1946."

School Division Announces Scholarship Winners

As outlined at the regular meeting of the Wainwright School Division, in April 1944, the scholarship plan that was drawn up at that time, has been in operation for the past year.

The results of this plan have been announced and to the lucky most studious workers, the most generous praise should be given.

Mr. Harry Allwood, of Edgerton, was the fortunate male student to receive the award, while Miss Eleanor Myer of Irma, was the other student to participate in the benefits of the plan. The interesting part of this is that Miss Myer's teacher was a local girl who completed her schooling in Wainwright.

The teacher in question is Miss E. Horn who is the daughter of Mr. and Mrs. Chas. Horn of Wainwright.

The outline of the scholarship plan which is applicable to RURAL SCHOOLS ONLY, is outlined below, as it appeared in the Sept. 6th, 1944 issue of the Star.

The following should be the main conditions governing the choice of the pupils to whom the scholarships would be awarded:

- (a) In making the award scholarship, need, qualities of leadership, and participation in various phases of the school's activities should be considered;
- (b) On or before December 31, 1944, each interested Grade IX pupil should file with the Secretary-Treasurer of the Division an application setting forth personal information concerning himself or herself, including a statement of

his or her ambition;

- (c) Such application should be accompanied by a recommendation from the pupil's teacher, and from one other responsible person;
- (d) At a date fixed by the Board (sometime in June, 1945) the prospective candidates should meet in Wainwright and submit to a set of three tests, as follows:

- i) A test of intelligence;
- ii) A test of general information;
- iii) A test on English and reading ability.

- (e) These should be prepared and administered by the superintendent with the assistance of the Secretary-Treasurer. The tests might be scored by a superintendent in one of the neighbouring Divisions;
- (f) The student must make an 'A' standing on the Grade IX examinations as administered and scored by the Department of Education, Province of Alberta;
- (g) The prospective candidates should be interviewed by a committee consisting of the chairman of the Board and the superintendent;

- (h) The award should be made known after the August meeting of the Board after its acceptance of the choice recommended by the committee mentioned above.

The scholarships should be valued at \$150.00 each, to be as follows:

- (a) Half (\$75.00) when the student registered at a recognized high school on the first day of the school term 1945-46;
- (b) Half at the beginning of the June term provided the pupil continues to do work of a high order as shown by the reports of the principal of the school which he or she attends.

WHEN THE SLIP GETS BY
The typographical error is a slippery thing and aly.
You can hunt until you're dizzy, but it somehow will get by.
Till the forms are off the press it is strange how still it keeps—
It shrinks into a corner and it never stirs or peeps.
The typographical error, too small for human eyes,
Till the ink is on the paper, when it grows to mountain size,
The boss he stares with horror, then he grabs his hair and groans;
The proofreader drops his head upon his hands and moans.
The remainder of the issue may be clean as clean can be,
But that typographical error is the only thing you see.

INDUSTRIAL INSTITUTE

FOR GRADUATE NURSES

An item of interest to all nurses in Alberta is the Institute in Industrial Nursing which is to be conducted by Miss Heide Henriksen, Industrial Nursing Consultant of the Minnesota State Department of Health, under the auspices of the Alberta Association of Registered Nurses. In Edmonton, September 12th inclusive at the School of Nursing, University of Alberta. In Calgary, September 13th to September 19th inclusive, at the City Hall.

This Institute is available to graduate nurses actively engaged or intending to engage in industrial nursing. Sessions are tentatively arranged for 10 a.m. to 12 noon, or 7-9:30 p.m.

Nurses desiring to attend the Institute should notify the Registrar, Alberta Association of Registered Nurses, St. Stephen's College, Edmonton, and state whether morning or evening sessions are preferred.

PUBLIC NOTICE

Wainwright School Board No. 1658

NOTICE is hereby given that the Fall Term for pupils of the above school will commence on MONDAY, SEPTEMBER 10th, and all parents and guardians are asked to govern themselves accordingly.

WAINWRIGHT, WEDNESDAY SEPTEMBER 5th, 1945

DANGERS OF THE ROAD

With gasoline rationing at its end, there is going to be an increase in driving, and with that increase, there is going to also be an increase in the accident rate of the average motorist.

Now to talk sense about such matters is not only logical, it is a must that everybody take extra precaution in their driving. The old bus may very well be in good shape, but there are a lot on the road that are not. Every accident that happens has not by any means two people at fault, and it might be very well that it could be the other fellow and that is the reason that extra caution is needed now as never before.

All accidents are not caused by collisions of cars, but on the contrary, stock are a great deal of trouble to the motorist. Last week a Wainwright motorist had the misfortune to run into a

herd of horses as he came over a steep hill, and being dark it was impossible to see them until it was too late to stop.

This incident could hardly be blamed on the motorist, he has paid his 15 to 20 dollars for his plates, plus \$1.00 for a driver's license, plus 10c a gallon for every gallon of gasoline that goes through the carburetor. True enough these levies do not give the motorist the right to go around maiming people and animals, but is not the motorist entitled to some privileges?

Is it not fair for the farmer to make sure that his stock are in at night, and not roaming around the countryside, causing a dangerous hazard to the general public.

Think this over Mr. Farmer, it surely is not too much to ask, that you could maybe by a little careful attention save somebody's life, as well as save somebody a lot of unnecessary expense and trouble.

BRINGING IN THE SHEAVES

Each year, along about this time or a little earlier just when the grass begins to get a little on the dry side, and the weather man acts as if he has gone crazy; when cattle quit their gadding around and settle down to the business of putting on a good layer of fat over their ribs and around the part where the good steaks come from; that is when the packers think the time is ripe to start bringing in the harvest. So, unhampered by Donald Gordon, the famous price fixer, they proceed to cut their prices, but the beef harvest comes rolling in off the ranges, just the same. Just who is the goat is hard to decide. We know the farmer takes a drastic cut in the price of his beef, just when he is forced to sell, but on the other hand the consumer goes right on paying the same fancy price for his steaks and roasts, never dreaming the price has dropped at the other end and not quite believing all this talk about a glut of beef on the market, when he expects any day now to get his new supply of ration coupons.

There is little doubt the packers have planned their harvest thoroughly, otherwise the same old gag wouldn't work year after year, but there are signs that the farmer and consumer alike are getting tired of the old skin game.

Remove Restrictions On Anti-Freeze Sale

Another wartime control has been abolished, providing welcome news for thousands of Alberta motorists.

On Friday, the minister of munition and reconstruction, Hon. C. D. Howe, announced that restrictions on anti-freeze have been lifted, according to word received by the Alberta Motor Association.

The order wiping out wartime restrictions applies to the manufacture, distribution and use of ethylene glycol and other types of anti-freeze.

While the restrictions on the sale of anti-freeze have been lifted, the price ceilings which were set some years ago still are in effect. This point is emphasized by dominion officials.

Motorists have for some time eagerly awaited word of stocks of anti-freeze being released. To those in a province like Alberta with its severe winter weather, the release will be particularly welcome.

It has been claimed for some time that large stocks of anti-freeze were in the hands of the manufacturers. Now these will be made available to car drivers.

Time for making and quality of structure in fixed-pitch wooden propellers for trainer aircraft, was vastly improved by the substitution by a Canadian scientist of bakelite instead of casein glue.

TO THE CANADIAN PUBLIC
WE SAY

Thank You

DURING the war, so happily ended, the Canadian National Railways, as Canada's greatest transportation system, had a gigantic task to do.

Our ability to fulfill this duty to the credit and satisfaction of the Nation is due, not only to the skill, devotion and zeal of those who are our workers, but in large measure to the Canadian Public who, by their generous responses to appeals for help and their uncomplaining acceptances of restrictions and controls, lightened our burden.

We wish to thank the Canadian Public sincerely for their help—the millions of passengers who used our trains and steamships, the shippers of freight and express, the guests in our hotels, the patrons of our telegraph and other services, and the unnumbered citizens who refrained from travelling needlessly as their contribution to the common cause.

The surrender of the last enemy has ended the fighting but it has not ended the war job of the Canadian National Railways. The men and women in the Services have to be brought home without delay and for that purpose we shall continue to employ all our available passenger equipment. Millions of tons of materials must be transported for industrial reconversion.

So in saying "Thank You" we express the hope that in carrying out these and other extensions of our war job, we may continue to enjoy the understanding of the Canadian Public.

Back in the Woodlot

Wood of trees that have died has less value as fuel than wood of trees cut green and properly dried or seasoned. For that reason nothing is to be gained by leaving in established woodlots and shelterbelts trees which are at a standstill, so far as further development is concerned.

The department of Agriculture says that woodlots and shelterbelts should be thought of as farm crops yielding a harvest within more or less definite periods, and, as such new crops must be started occasionally.

Migration Inside Canada

Home-ties in Canada are tightly bound up in sentiment and a feeling that permanence is the way of happiness. The sense of security within the family circle is precious to us all, but depressions and wars have their way with us, and change has its way with us, whether we like it or not.

These thoughts come to me as I look over the figures on inter-provincial migration. Figures are pretty cold things, themselves, but there are stories that they tell to the imaginative eye. The Dominion Bureau

of Statistics, a few months ago, published some facts about how Canadians moved about their country between the years 1931 to 1941. So much happened during those ten years.

In 1931, for instance, we were deep into a depression that disheartened all of us, with prices falling with a sickening thud, the winds tearing up precious Saskatchewan soil that needed rain so badly, and with people moving to new places in search of a living. Families had to leave their friends and neighbours and make a new life for themselves. The depression dragged on through the '30s and we were only on the threshold of the '40s when war descended upon us. Many, very many of us went into the armed services and others went to the cities to work in war factories.

The Bureau of Statistics figures show that during the 1931-41 period Saskatchewan had the greatest number of people leaving to live in other provinces. As a matter of fact, 188,204 people left Saskatchewan, while only 30,659 came in. The net decrease in the population of Manitoba through migration was 48,478. Alberta 41,841, New Brunswick 10,177, Prince Edward Island 2,672 and Quebec 1,584. On the other hand, the net increase through migration in British Columbia was 82,498, Ontario 77,484 and Nova Scotia 7,848.

I wonder what changes the post-war years will bring.

Farmers Approve Grading

Recent meetings of Farm Forum radio groups have been stressing something that the Canadian farmer has been feeling for some time. And that thought is that the grading of farm products is an excellent thing.

The Radio Forum groups consider

that grading is a prime safeguard against inefficiency in production. They readily concede that further improvements in the system of grading might enable producers to meet consumer needs more satisfactorily. They suggest, for instance, that grading practices should be more closely supervised, and that standardization should be on a national rather than on a regional or provincial scale.

These radio forums also vigorously repudiate the suggestion that price stabilization for farm products, if accompanied by a system of grading encourages inefficiency. Price fluctuations, in the past, they declare made farmers gamblers rather than efficient farmers.

Exchange Agricultural Students With Mexico

A plan to exchange agricultural graduate students between Canada and Mexico has been proposed by Federico Sanchez, Dean of the Agri-

cultural School of the State of Coahuila, Mexico. He recently visited Canada to select a herd of dairy cattle for the secretary of the Mexican president. He has made his suggestion to the Dominion Department of Agriculture.

Either we take our time, and other people's, or we take care to be on time.

Parents who know each other down to the ground can build their home from the ground up.

Religion is not a way of looking at certain things but a certain way of looking at all things.

Inner discipline builds better character than remote control.

Religion is man's best armor—his worst cloak.

Pulling together keeps the marriage knot tied.

NURSE ADELE'S REJUVENATION SALON

500 - 506 Dawson Building Hastings St., Vancouver, B.C.

Your Support IS VITAL TO RATIONING Mr. and Mrs. Farmer

With other groups, you play a part so that everyone gets a fair share

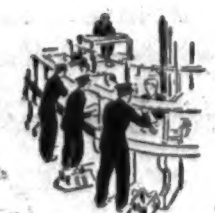

this is the cheque THAT JACK WROTE...

this is the Branch Bank where Jack keeps his money—so he does not have to keep his savings at home with the danger of loss, fire, or theft, and can pay bills safely and conveniently by cheque.

this is the Teller in a branch of a different bank in another city, who made sure that the man who presented the cheque was really the man Jack intended to pay. Then the amount of the cheque was added to that man's deposit account.

this is the Clearing House maintained by the banks so that customers' cheques can be exchanged and the banks can settle their accounts with one another every day. From here, Jack's cheque was sent to the clearing department of his own bank, and from there to the branch where Jack keeps his account.

this is the Ledger-Keeper who made sure that the signature was really Jack's. Then he debited Jack's account. The amount is entered in Jack's passbook next time he comes in, so he always knows exactly where he stands.

This is a sketchy outline of what happens when you pay an out-of-town bill by cheque. Many people pay their large local bills that way too. To be able to pay by cheque is a tremendous convenience which costs you little or nothing. Banks are the bookkeepers for millions of our fellow-Canadians.

This Advertisement is Sponsored by your Bank

The FARMER

Under the rationing regulations, you are asked to collect and turn in the coupons you acquire against the use and sale of butter and, when meat rationing is introduced again, of meat and rationed maple products. So that you may buy other meats from your butcher, from the sale of honey and other coupons in your ration book and in those of your household need be no more than one-half of the valid coupons you are surrendered. To make it easy to send in coupons, you are provided with RB-61 envelopes which should be forwarded once a month to your Local Ration Board. No postage is required.

The RETAILER

The retailer also plays a part. He must obtain coupons or other valid ration documents against every sale he makes of rationed foods—butter, sugar, preserves, meat. Otherwise, he cannot replenish his stocks. He must paste all coupons on gummed sheets and endorse each sheet with his name and address. If his monthly food sales total \$2,500 or more, he is required to operate a ration coupon bank account. He must also give valid ration documents or a ration cheque to his food.

The HOUSEWIFE

The housewife, too, has rationing work to do. She must know the validity and expiry dates of butter, sugar, preserves and, later, meat coupons so that she can make supplies of these foods last. She must know the coupon values of all rationed preserves and meats. She has to understand the sugar alternative of the preserves coupon in order to do as much home canning as possible and still have coupons for honey, syrups and other preserves. She must guard family ration books carefully and give up coupons for every purchase she makes of a rationed food.

RATIONING is your assurance of a fair share. It is a protection against waste : : : shortage . . . inflation.

That is why farmers are asked to continue to collect and turn in coupons to their Local Ration Boards - once a month - in the RB-61 envelope.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Capt. and Mrs. White of Wainwright at the Wainwright municipal hospital on September 3rd, a girl.

Mr. and Mrs. Gordon Burrows spent the week-end in town from Camrose visiting Mr. and Mrs. Tom Lissimore.

Miss Merle Baker arrived on the bus Saturday night to spend the week-end with friends in town.

Miss Elaine Glass was here from Edmonton at the week-end to visit relatives and friends.

Miss Jean Briggs left on Sunday for Saskatoon where she has accepted a position on the staff of one of the hospitals.

Mr. Billy Fish motored over from Camrose for the long week-end and was accompanied home by Mrs. Fish and baby daughter who have been visiting Mrs. Fish's parents, Mr. and Mrs. T. Lissimore.

After over five years active service with the Canadian Army, Mr. H. Harden has arrived home and has his discharge.

Mr. and Mrs. W. E. Elliott and son Bob of Edmonton were visitors at the home of Mrs. Elliott's parents Mr. and Mrs. W. T. Lane over the long week-end.

Miss G. Robinson was a guest for the week-end at the home of Mr. and Mrs. W. Prosser.

What we believe to be a very good record has been set by New Hampshire pullets, hatched April 7th that have commenced laying on August 27th. These birds are owned by Mrs. Chas. Hutchinson.

Mrs. E. Peterson is home this week after a holiday spent in Edmonton, Calgary and Lethbridge, having taken the plane from Edmonton to Lethbridge.

Miss Betty McNally is visiting relatives at Meadow Lake, Sask., on holiday from her duties on the Bank of Montreal staff.

Mr. and Mrs. Sid Belts and Mr. and Mrs. E. Davey were in town last week from Edmonton renewing acquaintances.

Miss Edith Hart is spending a holiday with her parents Mr. and Mrs. Fred Hart in town. She has been busy until now marking exam papers.

After an extended holiday visiting relatives in town Mr. and Mrs. W. Gano left Thursday for their home in Marmora, Ont.

We understand Mr. and Mrs. B. Hodgkiss have moved to Jasper and plan to make their future home there.

Miss Joyce Renville has returned to Edmonton after a holiday spent with her parents in town.

Mrs. Roland Buckton is away these days visiting friends in Vancouver, B.C.

Messrs G. Conroy and F. Stevens were trippers to Calgary last week to attend the Ford Convention held there.

Mrs. Allan Joyce returned home last week after a holiday spent visiting in Winnipeg. Her daughter Marjorie remained in Winnipeg.

All members of the Adeline Rebekah Lodge No. 54 are reminded that the fall term opens on Thursday, September 6th, with a regular meeting at 8:00 p.m. A full attendance is requested.

Miss Elned Dahl was over from Killam to spend the long week-end with her parents in town.

Mr. and Mrs. C. Coleman were visitors to the city for a few days at the week-end.

Miss Eva Sardoff was here from Edmonton to spend the holiday with her parents here.

After a holiday spent in Edmonton Mr. Harold King returned home Saturday night.

Mr. W. S. Simpson has moved his family here from Vancouver recently and they plan to make their home here.

The man with the biggest smile in town these days is Cal McKenzie. He's been delivering so many telegrams from boys on their way home that it's just natural to see him with a broad and happy grin.

Mrs. T. Kyle and family have arrived home after a holiday spent visiting in Edson.

Mrs. H. Koch and children left on Wednesday's train to spend a few days visiting in the city.

P.O. and Mrs. Paul Dupre were in town at the week-end visiting relatives. Paul is enjoying a leave from naval duties.

WHITE CLOUD

We understand that Mr. Jack Reid has sold his farm to Mr. A. Vegos. Tractors and binders are humming and it does sound like Harvest time.

GREENSHIELDS

Mr. M. Haynes is visiting relatives and friends in Saskatchewan.

Mrs. J. Rabby and boys accompanied by Miss Evelyn Kozak and Andy have returned from their vacation.

Pte. Martin Gosselin was home for a few days from his army duties. Mr. and Mrs. Bryan of B.C. are guests of Mr. and Mrs. Robt. Barnett.

Mrs. S. Fossen who has been nursing her mother at Provost is home for a week.

Misses June and Doris White are spending a few days with Mrs. Fred Aykroyd.

A large crowd attended the dance in the Hall on Friday evening.

Mrs. D. Davidson enroute to Edmonton spent a day with her parents Mr. and Mrs. Thos. Daniels.

EDGERTON

The pupils of this school who wrote exams last term have had their worries ended in that the marks came through last week. The results seem to be quite good.

Mrs. Fred Ramsey and boys left Thursday for a few days in the city. Fred Darling met with an accident whilst at work fixing eavestroughing on St. Mary's Church. The ladder he was on slipped throwing him to the ground and causing a sprained leg and ankle.

Mr. and Mrs. M. Meade of Edson are visiting with her parents, Mr. and Mrs. John Challenger.

Mr. McKay was taken to the Provost hospital Wednesday for medical care.

Mrs. H. R. Brown took Graham to Provost hospital for an operation. Mr. Harvey Challenger of Edmonton and Peggy are visitors at the Montgomery home.

Stewart Dinmore and family of Linberg were visitors here on route home from a visit in the States.

Miss Edith Jones of Irma was a visitor here between trains Friday. She is teaching next term at Vegreville.

Mrs. Art. Pierce and her two sons were visitors here for a short time.

Activity at Edgerton Oils No. 2 Well has again started.

Services were conducted by Rev. Vincent Cole at St. Mary's Church today.

Good progress is being made on the two new buildings going up here, the McKay house and Jim Steele's implement building.

The Empire Tavern looks quite attractive with the name painted up. Harry Johnson did his usual good work on it.

Mr. and Mrs. Floyd Kimball were visitors over the week-end at their respective homes.

St. Mary's W.A. will meet at the home of Mrs. Sawyer, Sr., next Thursday at 3:00 p.m.

The Darby family have gone to the lake for a few days.

Mrs. George Sawyer was a tripper to Lloydminster Saturday.

HEATH

Mr. and Mrs. Hughes and family motored to Provost to spend the holiday week-end with their relatives there.

Mr. and Mrs. Arthur Watson and family of Artland were week-end guests at the Bartlett home.

Pat Herbert of Meadow Lake was here on Sunday with his truck to assist Mr. and Mrs. Bob Herbert to move their household goods to Meadow Lake where they intend to make their home.

Mrs. Haite of Edmonton was a week-end guest with her parents Mr. and Mrs. Mansfield.

Lyle Berg of Edmonton spent the week-end visiting at the Touchette home.

Mr. and Mrs. Jos. Touchette received a telephone call from their daughter Cecile and her husband in Montreal on Saturday evening. They reported they had enjoyed their trip to Lake Raymond north of Montreal and wish to thank the Heath community for the wedding gifts sent them.

Mr. and Mrs. Augh arrived on Sunday night from Toronto to visit Mrs. Augh's parents, Mr. and Mrs. H. Smith at Heath.

Jack Ford left on Sunday night to report to Army headquarters in Calgary.

The bridge across the township line road east of Heath was badly damaged on Sunday night of last week when a car crashed into it injuring the driver and wrecking the car.

The Heath ball players had an exciting time last Thursday evening when their assistance was sought by the police in the search for three car thieves who had abandoned their car near Heath and were being pursued by the police car. After a chase of three miles across country they were caught near Clear Lake. Amongst those assisting in the chase were J. W. Ford, Fred Ford, Jr. Neil MacFadyen, Neil MacFadyen, Sr. Bob and George Wilkinson, Jack Ford and Evelyn and Gerald Ford and Dave Bartlett.

GERALD

Visitors at the home of Mr. and Mrs. R. Deyell recently, included M. and Mrs. T. McCreath and family, and Mr. H. Dowling of Edmonton.

Miss Lucille Deyell was a patient in the Wainwright hospital for a day when she had her tonsils removed.

A large number of members of the Gerald Victory Club attended the demonstrations in Wainwright on August 30th. It was given by Miss Ruth Whaley, of the Extension Service.

Our sympathies are extended to all the family of the late Mr. A. Zehnder who died in Wainwright on August 25.

Miss Gullikson of Vancouver is visiting at the homes of Mr. and Mrs. E. Gullikson and Mr. and Mrs. C. Gullikson.

Many from here enjoyed the wedding dance given by Mr. and Mrs. J. Perkins in Wainwright on Friday evening.

Is MONEY the fertilizer you need?

Money makes money grow. If you need extra money to do a better job on your farm, come in and discuss your plans and problems with us in confidence.

Ready money is available—

for the purchase of fertilizer, seed, and binder twine;
for the purchase of livestock;
for the purchase of electrical equipment, heating and lighting systems, milking machines, pumps, etc.;
for the purchase of implements;
for the construction of drainage systems and fencing;
for road work and land improvement;

for the construction or repair of farmhouse and other farm buildings;
for any purpose that will make a good farm a better farm and increase its owner's revenue.

Have a talk with your Bank of Montreal manager. You will find he knows a good deal about the farmer's problems, and you will appreciate his friendly interest. His first ambition is to see every farm in this community a prosperous farm and where ready money is the fertilizer you need, he will be glad to lend it and plan with you for its intelligent use and convenient repayment.

The Road Ahead

"I'm a Yank in the RCAF who quit a pharmacy course at Columbia University, New York, to join up," writes a Pilot Officer from England. "I'd like to go on and finish when I get back, but I'm not sure it's allowed. I've been told that you had to be going to Canadian schools before you could qualify for benefit. Could you enlighten me on this point and also let me know what other benefits I get? My wife and child are living in Brooklyn."

Since you interrupted a college course to join the RCAF you would seem eligible for an education grant, sir. Under the present policy only those veterans such as yourself who actually stopped in mid-course outside Canada to join up, are being assisted to continue their education outside this country. Each case, as you will probably discover, is judged on its own merits. At discharge, too, you will get a rehabilitation grant of 30 days pay and allowances, \$100 for clothes, and gratuities amounting to \$7.50 for each 30 days of qualifying service, plus 25c for each of these days served overseas. In addition, you get 7 days pay and allowances for each six months spent overseas.

"Can I use my Re-establishment Credits to pay off a second mortgage on my house?" asks a Company Sergeant Major from Baie, Ontario.

Yes, you can. The reduction of a mortgage on a house already owned is one of the purposes for which the credits may be used. Contact your nearest supervisor of Re-establishment credits.

"I was attached to the YMCA auxiliary services for some time prior to joining the CWAC," writes a lance corporal from Windsor, Ont. "I expect discharge soon. My hus-

band, a CBC employee and I, would like to take a small place near Port Credit where we could go in for farming in a small way. I've been told that you had to be in the services a year to qualify for VLA, and although my total CWAC-YMCA services in over two years I've been in the army only eight months. Would I be eligible under the Veterans' Land Act?"

Since you haven't mentioned any overseas service, Miss, I take it you were connected with the YMCA morale builders in this country, and therefore I don't think you are eligible under the VLA. Overseas duty in the auxiliary services, with a disability pension are the requirements which qualify Canadian Legion, YMCA, Knights of Columbus or Salvation Army workers for these benefits.

"My husband joined the army in 1940, but has so far not joined the active service branch," says a woman in Victoria, B.C. "We know he won't get any gratuities and that's quite all right but he does want to go back to the University of British Columbia. Will he be able to do this? Also, since he has changed his mind about what he wants to do, does he have to take the same course he was in before for one year?"

NRMA personnel are eligible for the same training and education benefits as General Service people, so if it's okay with the University of British Columbia, your husband can apply for assistance to continue his education. They'll also be the judges of whether or not he can qualify for a course other than the one he was in before.

Using new methods of mine-laying Canadian airmen bottled up thousands of German troops in Norway who were badly needed at home.

MOBILE CHEST X-RAY UNITS COMPLETE 2 YEARS OPERATION

A new method of fighting tuberculosis was introduced in Alberta on August 15th, 1943, when the first mobile chest X-ray unit commenced operations.

Impressive figures released to-day show that in two years 140,151 Albertans have had chest X-rays. Active cases of TB number 360, with 1,711 inactive cases.

While designed primarily to discover early cases of tuberculosis, the mobile units' surveys have served another useful purpose in revealing 3,616 other abnormal chest conditions, many of which were hitherto unsuspected. All persons found to have any abnormal condition were notified promptly.

Operated by the Alberta department of health, the two units were bought by the Alberta Tuberculosis Association and affiliated local committees, at a cost of \$40,000. The annual Christmas Seal campaigns provided the money.

ITEMS OF INTEREST IN

THE WORLD OF FOODSTUFFS

Wheat stocks in both Australia and Argentina on July 1st were considerably below those of a year ago. Germany is reported to have lost 75 percent of her pre-war milling capacity—Portugal's wheat crop is reported by Broomhall to amount to only about 6 million bushels, compared with an average crop of 17 million bushels.

Crop prospects in the Argentine have been materially improved and it is now believed that wheat acreage will be about 10% larger than last year—Although Turkey's crops are smaller than last year's, supplies are assured because of a substantial "carry-over" stock.

Playing safe with TEXTILES

The supply of textiles is not adequate to the demand.
For six years, most of the world output has gone to war.
Victory has not improved the situation.
There will not be enough textiles in Canada for many months to come.

HERE ARE SOME OF THE REASONS

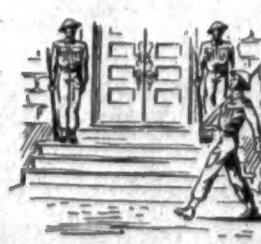

Canada depends largely on other sources for raw materials and for some yarns and fabrics.

A serious manpower shortage still confronts the textile industry of all Allied countries.

Shortages overseas must be met. It will take months before production is resumed in Europe.

Substantial quantities of all kinds of textiles are still required by occupational forces.

Domestic demand for textiles increased sharply during the war. It is still going up.

Civilian clothing needs of returning servicemen and women are swelling the demand here at home.

CONSERVATION IS THE KEYNOTE

This year, production directives have again been issued to the textiles industry.

They are intended to divert output to more essential goods.

But directives alone cannot cure a situation arising from world conditions.

The answer lies in conservation. More than ever, the need is to conserve, to take care of what there is, to mend, make-over and make-do.

TO PROVIDE CANADIAN WOMEN with guidance and practical assistance in maintaining the family wardrobe, the Board has prepared a series of advertisements, to assist Canadian women. Each subsequent advertisement will illustrate tested ways of styling new and fashionable modest garments. For valuable hints on style, economy and conservation, watch these columns.

Our Motto
A Home From Home

CANADA
Russell L. GIBSON
and Robert REEDS

Len Tripp began flying 26 years ago today, with over 15,000 hours in the air to his credit, he runs one of Canada's foremost civilian flying schools and is just waiting on new post-war planes for a several times over expansion.

It was during the last war when Len, a member of the Imperial Army, got into flying. He'd been wounded by shrapnel in the trenches, and it was in the days when pilots were needed badly. They were being shot down almost as fast as they took to the air.

Because a man sat down in a plane, flying in those days was considered an easy job—so far as physical resistance and stamina were concerned at least. So while still more or less recuperating, Len learned to fly and stayed with until the end of the war and for four years after.

While still a member of the Royal Flying Corps, he heard about flying in Canada, and the planned formation of a provincial air service to help fight forest fires in Ontario. So to Canada he came and got a job flying those big old flying boats that were first used to ferry fire fighters and their equipment in to the interior regions.

In 1926 a historic event took place. Canada's first civilian flying school opened in Hamilton, and Len was hired as its first and only instructor. Students came from all over Canada to train on the old war Jenny which Len flew from early morning to late at night.

Dual instruction was \$25 an hour, but there was no fortune in it for either Len or the school operator. Most of the money went down the drain in the high costs which had to

Hints for the Household

SWEET DREAMS PUNCH

If you serve this Sweet Dreams Punch to holiday guests, everybody can relax taut nerves over extra glasses without worrying about sleeping problems. Just pour four cups of freshly made caffeinated coffee, chilled, over a pint and a half of ice cream or sherbet in a punch bowl or big mixing bowl, and blend lightly with an egg beater. Sprinkle with grated nutmeg. Remember that caffeinated coffee, if made in a percolator, should be percolated from 15 to 18 minutes to bring out the rich coffee flavor. Vanilla, coffee or chocolate ice cream, or orange sherbet are all good in your punch.

Magic Chocolate Pie

be met. But some of T.C.A.'s best veteran pilots today are men who get their first flying instruction from Len Tripp in Hamilton 19 years ago. The airport they used then, incidentally, is now an artillery range about a mile or two from the municipal airport where the Cub Aircraft factory is located, and Len, today, by coincidence, is the cub dealer in Toronto as well as a flying school operator.

Late in the 30's, Len began instructing with another civilian flying school at Toronto's Barker Field and two years ago he branched out on his own. His small pre-war light planes are now constantly in the air and one of his best customers is a T.C.A. captain who flies in regularly several times a week from Winnipeg on his 220-mile-an-hour Lockheed, then drives over to Barker field for a flight in a little 65-horsepower, two-seater, 80-mile-an-hour Cub.

"He gets a tremendous kick out of it," chuckles Len. "I suppose it's because flying a big plane is work while this is more like play."

2 squares (2 oz.) unsweetened chocolate

1 1/3 cups (15 oz. can) sweetened condensed milk
1/2 cup water
1/2 teaspoon salt
1/2 teaspoon vanilla
Baked pie shell (8-inch) or cookie crumb crust

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over rapidly boiling water 5 minutes until mixture thickens. Remove from heat. Add water and salt. Stir until thoroughly blended. When cool, add vanilla. Pour into baked pie shell or cookie crumb crust. Garnish with whipped cream, if desired. Chill. Sweetened condensed milk, a smooth creamy blend of whole milk and sugar, guarantees a magically failure-proof filling that is always just right for cutting, neither too thick nor too thin. And the filling doesn't take a bit of your cherished sugar unless you top it with a meringue.

To make a cookie crumb crust, roll enough vanilla wafers to make 1/2 cup crumbs. Stand halved wafers around edge of plate. Cover bottom of plate and fill in spaces between halved wafers. Pour in filling as usual. **Peanut Chocolate Rennet-Custard**
1 package chocolate rennet powder
1 pint milk, not canned
2 tablespoons peanut butter
Add peanut butter to milk in top of double boiler and beat with rotary egg beater and to distribute evenly. Warm mixture to LUKE-WARM. Proceed according to directions on package. Chill. When ready to serve, garnish with jam and a few peanuts if desired.

PEACHES ARE PLENTIFUL

Every fruit will tell today if accurate jelly making recipes are used. Try peach jams and jellies with short-bolt directions and you will save not only your time but precious material as well. And remember that your spreads will have the fine rich flavor of fresh peaches.

ials as well. And remember that your spreads will have the fine rich flavor of fresh peaches.

Ripe Peach Marmalade
4 cups prepared fruit
5 1/2 cups sugar
2 cups light corn syrup
1 bottle fruit pectin

To prepare fruit, peel off the yellow rind of 1 medium orange and 1 medium lemon with a sharp knife, leaving as much of the white part on the fruit as possible. Put yellow rinds through the food chopper twice; add 1/2 cup water and 1/16 teaspoon soda to ground rind, bring to a boil, and simmer, covered, 10 minutes. Cut off the tight skin of the peeled fruit and slip the pulp out of each section. Add pulp and juice and the juice of an additional lemon to the rind, and simmer, covered, 20 minutes longer. Peel about 1 1/2 pounds fully ripe peaches. Pit and grind or chop very

fine. Combine fruits.

Measure sugar, syrup and prepared fruit into large kettle, filling up the last cup with water if necessary. Mix well.

Bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot marmalade at once. Makes about 12 glasses (8 fluid ounces each).

During the National Clothing Collection for liberated countries October 1-20, Canadians will be asked to give serviceable used clothing that they can spare from their wardrobes without replacement. Every spare garment is needed for the liberated millions of Europe and China.

**Short on Sugar
long on lusciousness**

MAGIC Dutch Apple Cake

2 cups flour
1/2 cup salt
4 eggs, Magic Baking Powder
4 lbs. butter
1 egg
4 lbs. sugar
4 lbs. milk
3 apples
Mix together dry ingredients; cut in butter with two knives; add sugar; mix lightly. Deep egg into cup, unbroken, add milk ice cold. Turn on to floured board, shape dough; put on greased sheet. Press and cut apples into eighths; press into parallel rows into dough; sprinkle with sugar and cinnamon and dot with butter, mixed together in the proportion of two lbs. sugar and 1/2 lb. cinnamon. Bake at 400°F. 30 minutes.

VETERANS' SKILLS

Canada's men and women in the armed forces have acquired new skills during the time they have served their country, and these new skills are going to contribute materially in the task of reconstruction that lies ahead. And that is where the Royal Commission on Veterans' Qualifications comes into Canada's rehabilitation setup. For it is the important task of the commission to see that the very most of these skills are made use of.

There is also the problem of correlating educational courses taken by men and women while with the service which are directly useful to those intending to pursue further studies after discharge. These courses will not be overlooked by the commission

for, in fact, the commission will also confer with university and educational authorities on the subject of their recognition.

The commission, under the chairmanship of Col. Wilfred Bovey, of Montreal is now busily engaged in examining the problems and possibilities of utilizing the craftsmanship of those men and women who are leaving the services for peacetime pursuits. As chairman of the Committee on Education, B.E.S.L., Col. Bovey brings to his job a wide background of the subject. Other members serving with him are: D. S. Lyons, vice-president of the International Association of Machinists, Montreal; Stuart R. Ross, of the Windsor Vocational School staff; J. C. G. Herwig, Canadian Legion, Ottawa; F. W. Smeltz, Regional Director of Select-

ive Service, Vancouver; and Hector Dupuis, Regional Director of Selective Service, Montreal.

Hon. Humphrey Mitchell, Minister of Labour, well aware that the commission faces a task which is a very important cog in the machinery of re-establishment and rehabilitation says: "It would be a definite loss to Canada and to Canadian industry, and in many cases a tragedy to the individual, if upon re-entering industry proper account were not taken of this vocational training while with the armed forces."

While headquarters of the commission are at Montreal, it is holding meetings at various points across Canada. While in provincial capitals it will confer with governments of the province and also educational authorities. Hearings are scheduled, or have already taken place at Toronto, Vancouver and Victoria, Edmonton, Regina, Winnipeg, Quebec City, Charlottetown, Halifax and Fredericton.

The co-operation of trade unions and other groups with a responsibility or interest in the returning serviceman has been urged, and has been forthcoming.

Several interim recommendations of the commission have already been announced by Mr. Mitchell. One of these preliminary recommendations

asked that the Department of Veterans' Affairs at once take advantage of the new system of re-education centres established by the Department of Labour of the Province of Quebec. This was complied with.

After observing that the practice varies as among the navy, army and air force, the commission has also recommended the issue of special documents upon discharge to all members of the armed forces indicating occupational and educational standing obtained while in the services.

In this respect, the three defence departments have already undertaken the preparation of reports in covering all types of instruction given within the forces. One highly qualified officer from each service has been assigned to the commission as a technical advisor.

The commission also recommends that, through the use of Canadian Legion Text Books, by correspondence and in classes, those in the forces both overseas and in Canada should be assisted in acquiring matriculation or university entrance academic standing.

Another recommendation asks that the Dominion government start an aerial survey of Canada, and that the attention of the universities be directed to the desirability of establishing courses leading to the preparatory requirements necessary for clinical and engineering photographers. It also recommends that a combined school be established by the three armed services with the object of training:

(a) engineering and clinical photographers, if required;

(b) personnel in the services who would benefit by further training and might be subsequently employed in governmental activities.

Eying a present, and probable post-war shortage of teachers in the Dominion, the commission suggests that the situation might be overcome by the training of selected instructional personnel from the three armed services. This, it also points out, offers work opportunities for veterans.

Impressed with the avenues of employment offered by industry in Canada to those especially fitted for personnel work, the commission suggests that many will be found among officers and other ranks of the services who have special aptitude for jobs of this kind. These persons, it is stated, should be given helpful advice in regard to personnel work by counsellors who are themselves veterans. The commission has recommended that universities and other educational institutions be invited to set up courses whereby the men picked for personnel work may be made acquainted with civil requirements including modern theory and practice.

The commission has made several further recommendations which are now before the government.

This then, is a concrete start toward a goal of making the widest possible use of the very large amount of useful experience that servicemen have gained in this war. As the commission holds further meetings in Montreal and various other parts of the Dominion there is no doubt that ways and means will be found to make the fullest use in peacetime of aptitudes that have been developed in war.

CANADA PREPARES

FOR NINTH VICTORY LOAN

Canada's Ninth Victory Loan will open on October 22nd and will be the biggest ever floated in this country, the Honorable J. L. Halsey announced today. The Loan will cover Canada's borrowing needs for the next 12 months, making it unnecessary to have another campaign next spring. "One large Loan now instead of two smaller Loans, one now and another in the Spring of 1946, means a substantial saving of time, effort and expense," he said. "It is possible to aim for a full year's needs in one Loan because Canada's borrowing requirements over the next 12 months will not be as large as they have been in recent years."

"Victory has been won in Europe and in the Pacific. The end of hostilities means the end of many war costs. But, we now face new tasks and, these new tasks bring new needs. So, total outlays and borrowing requirements will continue at high levels."

"For instance, men in hundreds of thousands must be brought back to their homeland from overseas. This will take time because of shipping shortages and continuing operations in occupied areas. Meanwhile, they must be paid, fed, housed and cared for in a hundred-and-one different ways. This all costs money—large amounts of it."

"Then, the wounded and the sick must be restored to health. Veterans will be given a good start in civilian life. Many will be trained for new jobs. War service gratuities and re-establishment credits will be paid. These and other rehabilitation outlays involve hundreds of millions of dollars."

"People in war-torn countries need food, clothing, medical and other supplies to relieve suffering and distress. The United Nations, including Canada, are making gifts of essential supplies to these peoples. Canada is also lending money to countries in war

areas to help them buy supplies in Canada urgently needed to overcome the losses and devastation of war. The money Canada will spend and lend in these ways is an investment in the future peace and prosperity of the world."

"Then, there are outlays of various kinds to clean up the war program, and to start us on our way towards normal peacetime living. "These tasks, and these needs, are reasons why Canada's borrowing requirements for the next year will remain at a high level even though direct war costs have declined with total Victory. They are reasons why Canadians are being asked to continue their present savings program for another year."

"Plans to win the peace—plans for high employment and prosperity in the days to come—are now being laid. Continued saving over the next year will help these plans succeed."

"War production has come to an end. Production for civilian use is on the way up. But, the supply of new things to buy at current prices is still very much less than the amount of spendable money in the hands of Canadians. As long as this condition remains, there will be upward pressure on prices—pressure which could lead to inflation, then to mass unemployment, misery and hardship."

"Spending increases this pressure. Saving reduces it. So continued saving, by the purchase of the 9th Victory Loan Bonds, helps to keep the cost of living under control, and to maintain the buying power of our money. By helping to maintain stability, it will help us to win the peace."

"The minimum objectives for the new loan are the largest in Victory Loan history. They reflect the two Loans in one feature of the 9th Victory Loan, the continued need for saving, and the new level of borrowing requirements."

"As individuals, Canadians know the value of Victory Bonds—the value of a reserve of savings to meet future needs and wants. With twelve months to pay for 9th Loan Bonds, many Canadians will buy double the amount of their purchases in earlier Loans, and most others will buy more than before."

"The 9th Victory Loan will be Canada's Greatest Victory Loan."

LAMONT ELECTED PRESIDENT
LINE ELEVATORS GROUP

Matters relating to Western agriculture and the grain elevator trade were reviewed at the forty-first annual meeting of The North-West Line Elevators Association held in Winnipeg.

Directors elected for the ensuing year were: C. E. Austin, General Manager, McCabe Bros. Grain Co. Ltd.; G. F. Copeland, Assistant Manager, Reliance Grain Co. Ltd.; W. J. Dowler, Secretary-Treasurer, Parrish & Heimbecker Ltd.; R. B. Emerson, Vice-President and General Manager, National Grain Co. Ltd.; J. G. Fraser, The North-West Line Elevators Association; J. M. Gilchrist, Vice-President, Searle Grain Co. Ltd.; W. A. Hastings, Manager, Lake of the Woods Milling Co. Ltd.; C. E. Hayles, President, Canadian Consolidated Grain Co. Ltd.; C. C. Head, General Manager, N. M. Paterson & Co. Ltd.; Cecil Lamont, The North-West Line Elevators Association; S. D. MacEachern, Winnipeg Manager, Federal Grain Limited; Wm. McG. Rait, President, Pioneer Grain Co. Ltd.; A. C. Reid, President Western Grain Co. Ltd.; V. W. Tryon, Vice-President, Federal Grain Limited.

At a subsequent meeting of the directors, officers appointed were: President, Cecil Lamont; Vice-President and General Manager, J. G. Fraser; Assistant Secretary, James Seaton; Director, Line Elevators Farm Service, Dr. K. W. Neatby.

The North-West Line Elevators Association was organized in 1899, "for the purpose of formulating rules to govern transactions between its members in the handling and shipping of grain, with the object of reducing the expenses of handling the crop of the country to a minimum." Since the organization of the association grain handling charges have been reduced to the point where they are now recognized as the lowest prevailing in any grain growing country of the world, coupled with the most efficient and expeditious plant for the handling and movement of grain to market, it was pointed out. In addition the Line Elevator Companies have developed through the association an agricultural department to assist farmers in bringing about economies in farming operations and to assist them in meeting farming problems.

The North-West Line Elevator Association is comprised of the owners and operators of 3,400 country grain elevators located throughout the prairie provinces and terminal elevators at the Head of the Great Lakes and on the Pacific Coast with a total storage capacity of 274,000,000 bushels.

Unless contributing countries supplement their aid already being given, "the name of the United Nations will be a mockery in Europe this winter," Herbert E. Leham, Director-General of UNRRA, Support the National Clothing Collection for liberated countries, October 1-30.
